WHAT PHYSICIANS AND LAWYERS EARN. -Says a west side physician: "Probably the most lucrative medical practice in Chicago is worth about \$25,000 a year. That is the best the most successful physician in Chicago can do. Doctors do not earn as much as lawyers. I mean the successful ones. I suppose there are a dozen or more lawyers in town who make more than \$25,000 a year, and a score or so enjoy an income of from \$15 000 to \$20,000 a year. You can count on the fingers of your two hands the number of doctors making \$10,000 a year. One of them is a colored man, whose practice is largely among white people. Yet the aver age carnings of the physicians of the city probably exceed the average earnings of the lawyers. The average in both professions is startlingly low, probably not exceeding \$1.000. There are hundreds of good openinge for physicians in the growing country of the West, but young men persist in clinging to the city, where many of them eke out an existence on an income of \$300 or \$400 a year, waiting for something better to turn up."- Chicago Herald.

The combined wealth of this remarkable endeavor of the living members of the family to underestimate their possessions in orwhich is more than half as great, and the which is more than half as great, and the set the questions of title and sufficiency of fortunes possessed by the husbands of the married daughters of the family, there would be a total that could not fall short of \$250,000,000.

> An authority on pige says that he never thinks of cutting off the tails of his pigs. The tails are the indicators of the porkers' condition. If piggy doesn't feel well, if his food doesn't agree with him, his tail begins to straighten. The sicker the pig the straighter the tail; and the healthier the pig the tighter the curl. The old theory that it takes a bushel of corn to fatten an inch flail this pig raiser scorns. The pig's tail is his pulse; therefore never cut it off.
